We all have dreams.

Most of us aspire to a better lifestyle.

Surrounded by beauty. By things that reflect our personality and taste. Things that prove – sometimes to others, but most importantly to ourselves – that we've made it. We all have dreams. However more often than not those dreams come at a price. One that most people can't afford. At AM.PM we make dreams a reality. We turn your everyday places into something extraordinary.

AM.PM brings you premium products at the best possible price. We combine the best product innovations with what we call emotional design, all delivered through a service experience that is fast, flexible and attentive.

We're a European company, seamlessly blending Nordic and Italian design, underpinned by dependable German engineering. The result is a collection of beautiful, great quality products that can easily work within any style and context and that are easy to mix and match.

We partner with a handful of best-in-class designers, engineers and manufacturers, allowing us great flexibility, strong negotiating power and low overheads – the perfect formula for making our iconic emotional designs accessible to more people.

At AM.PM we bring you extraordinary everyday places.

At AM.PM our unique design philosophy has gained us a reputation for excellence, winning us more design awards in quick succession than any other bathroom brand over the last six years. Never before have so many accolades been awarded across all product categories and price points, coming from the industry's most respected names including Red Dot and iF Product Design Awards.

With design so firmly at the core of our business, it's not surprising that our work is getting noticed. That's because we set the bar high at AM.PM. Only products that deliver all our expectations make it into our collections — boasting on trend designs, outstanding features and industry-leading technologies. Our design engineering process is comparable to that of a luxury car; relentless over every detail, refining and refining again until absolutely perfect.

We believe if something is worth doing, it's worth doing in an extraordinary way.

The AM.PM client service center is located in Oberhausen, Germany. Experienced international specialists there can answer any question online, consult you in different languages and give you information for clients in different countries.

A similar center is situated in St Petersburg — there our designers, technical specialists and various business coaches organise workshops and discussions dedicated to product development and service quality improvement. Another international center in Shanghai (China) accommodates clients on the Asian markets.

Our purpose remains the same — to provoke desire, to surprise and to amaze our customers. This is why AM.PM was created, and that's what makes our bathrooms so special.

We care about what you think and want to know what you have to say. Your reaction to our products and services is important to us. For further information about AM.PM and our products, please call:

Call center for European countries:  
+49 208 88 42 23 71

Call center for CIS countries:  
+7 800 200 29 29

Call center for Asian countries:
