Introduction

A close-up photograph of a person's hand holding a pen, with a red semi-transparent overlay covering the right side of the image. The hand is positioned in the center, with the pen held between the fingers. The background is a light, textured surface, possibly a piece of paper or a wall. The red overlay is a solid, vibrant color that covers the right half of the image, creating a strong contrast with the white text.

Extraordinary everyday places

We know those precious dreams of yours — to surround yourself with a lifestyle you aspire to. However, more often than not those dreams come at a price most people can't afford. To make our aspirational products accessible to more people we combine the best product innovations with what we call 'emotional design', all delivered at a market-leading price. At AM.PM we make everyday places extraordinary.

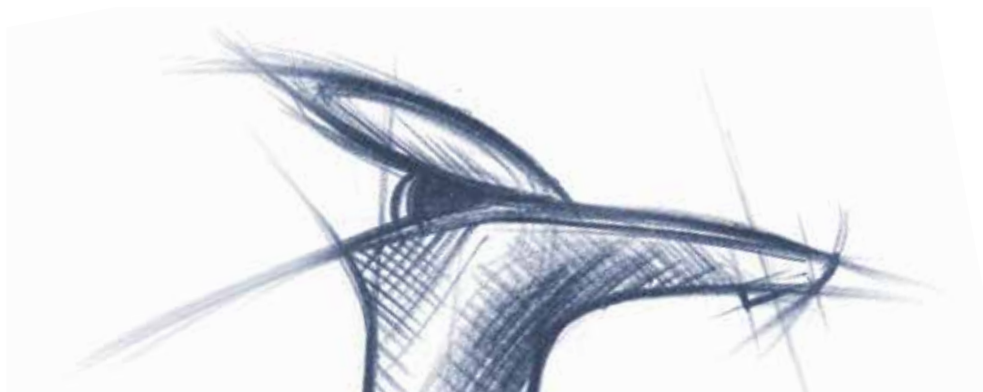

Our designers

Design that makes your heart race

Our passion to create something extraordinary, something that excites a multitude of human senses, is at the heart of everything we do at AM.PM. Of course we develop the best solutions in ergonomics, form and function but what's equally as important to us is how our bathroom products make you feel. From the moment your eyes take in our signature curves and your hands intuitively move over our smooth-action controls, you are connecting emotionally with the AM.PM experience. This unique design philosophy, what we call 'emotional design' is the origin of our iconic look and unmatched tactile experience.

We push the boundaries and inject fresh thinking into our collections by working with best-in-class European designers from completely unrelated industries. The result is a timeless, sophisticated style with distinct Nordic / Italian influences.

DanelonMeroni

Claudia Danelon and Federico Meroni

This innovative London-based product design studio combines expertise in architecture and interior and product design with an understanding of brand experience to create products that are beautiful, functional and desirable.

Design3

Bjoern Vibrans and Wolfgang Wagner

Design3 is one of the world's leading design studios. Founded in 1987, the Hamburg based studio's approach is based on a modern interpretation of the classic German design values of simplicity, functionality and ease of use. Their work has won more than 100 international awards.

GP designpartners

Christoph Pauschitz, Rudolf Greger, Christian Rukower, Roland Kaufmann

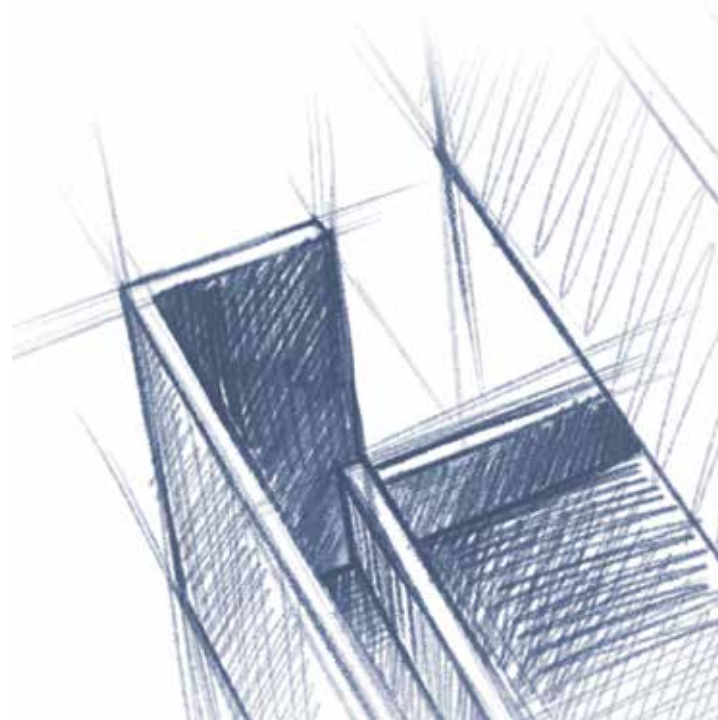

GP is located in Vienna and was founded in 1992. A team of highly motivated designers, they offer more than 20 years of industrial design experience with an award-winning variety of product design — from bathroom facilities to cableways and from baby products to solar lights.

AM.PM Design

More than 20 designers

AM.PM Design is our inhouse design studio that consists of high-level professionals. AM.PM designers take inspiration outside the sanitary industry, constantly tracking trends in car, electronics and household goods design in order to create really extraordinary products.

Our awards

63 design awards in eight years – faster than anybody else in industry

At AM.PM our unique design philosophy has gained us a reputation for excellence, winning us more design awards in quick succession than any other bathroom brand over the last eight years. Never before have so many accolades been awarded across all product categories and price points, coming from the industry's most respected names including Red Dot and iF Product Design Awards.

With design so firmly at the core of our business, it's not surprising that our work is getting noticed.

That's because we set the bar high at AM.PM. Only products that deliver all our expectations make it into our collections — boasting on-trend designs, outstanding features and industry-leading technologies. Our design engineering process is comparable to that of a luxury car; relentless over every detail, refining and refining again until absolutely perfect.

We believe if something is worth doing, it's worth doing in an extraordinary way.

A woman's profile is shown from the chest up, facing right. Her hair is long, wavy, and brown. The image is overlaid with a large, semi-transparent teal rectangle that covers most of the frame. The word "Collections" is written vertically in white, bold, sans-serif font on the left side of the teal area.

Collections

Aspirational bathroom collections

Discover five unmatched collections by AM.PM, each one with a unique character of its own. Five ready-made bathroom solutions, their sophisticated details and iconic shapes creating a single harmonious whole. Never before has choosing bathroom products been such a sheer pleasure. By bringing you the joy of total functionality and advanced technologies, combined with the excitement of our emotional design, at AM.PM we make your everyday life truly extraordinary. You are sure to identify yourself with one of these.

Sensation

Masterpieces that excite

Inspired by organic shapes and perfected by the dynamic lines of human-crafted objects, Sensation is the range for the sophisticated and sensual; for those who cherish effortless beauty and flawless masterpieces.

Design by GP designpartners, Austria, and DanelonMeroni, UK

ShowerSpot F0730000

16

17

18

19

The Sensation collection is the best way to experience what emotional design is all about. Every product is perfected — calculated curves and dynamic organic shapes allow the products to work together easily, creating a coordinated look for new emotions every day.

Every detail of the furniture in this collection is destined to highlight the taste of its owner. The specific design of the washbasin creates the feeling of weightlessness as if it's floating on air. A variety of fashionable designs and functional features, such as full-extension drawers, will satisfy even the most sophisticated desires. Exquisite Sensation furniture is perfect both in functional details and design, thanks to ultra-sensitive sensors, adjustable warm/cold lighting, double mirrors and organisers.

Inspire V2.0

Really extraordinary

Smart is inspiring. Originally created to give you the edge over conventional bathroom designs, the incredible Inspire range has been totally reworked to bring you styling and technology that is way ahead of its time. Packed with stunning features such as the TouchReel control option, that will revolutionise your bathroom experience, this smart designer range comes at a price that can't be matched in today's market.

Design by GP designpartners, Austria and Design3, Germany

TouchReel electronic basin mixer F50A02400
Washbasin for vanity unit M50AWPC1001WG
Toilet roll holder with box A50A341500
Wall-hung WC TouchReel CCC50A1700SC

24

25

So minimalist and on-trend, the new Inspire V2.0 bathroom furniture is as smart as it is attractive. Its ultra-thin, aluminum mirror features integrated touch-controlled lighting that provides the perfect light, at the perfect angle for applying make-up. Another market-first from AM.PM is the under-sink drawer; specifically designed to fit all your beauty products without an inch of wasted space.

Feel the pleasure of a truly amazing showering experience. With the all-new Inspire V2.0 ShowerSpot, it's at your fingertips. The mixer features two handles for intuitive control of the overhead and hand showers. Just choose the desired spray mode by pushing the handle, then turn it to adjust the flow. The setting will remain unchanged until your next shower. The thermostatic mixer maintains the preferred water temperature and features a cleverly integrated shelf for your favourite shampoo. And you'll love the way the Inspire V2.0 hand shower feels with its tactile, soft-touch faceplate.

The Inspire V2.0 accessories have the look and feel of hi-tech gadgets, featuring striking glass elements that are both ultra-thin and extra-strong. And their well considered, sleek design is full of surprising details — such as the storage compartment in the toilet roll holder. Everything's in its rightful place!

28

29

The Inspire V2.0 bathtub is simply a great update of its multi-award-winning design. Its ergonomically designed backrest and therapeutic shape are now beautifully complemented with an ingenious, integrated shelf to keep your soap and beauty products close at hand.

Spirit V2.0

New spirit of the extraordinary

Your world will never be the same again. The totally reworked Spirit range is leading a complete revolution in bathrooms. Packed with innovations and new technologies, this extraordinary collection delivers performance and trend-setting style that will simply amaze you.

Design by Design3, Germany.

Update by Design by GP designpartners, Austria and DanelonMeroni, UK

Single-lever basin mixer F70A02100
Wall-hung WC FlashClean C701 700WH
Vanity unit 100 cm M70AFHX1002

32

33

Spirit V2.0

The super-ergonomic design of these basin, bath-shower and shower mixers has to be experienced to be believed. Unlike other mixers, the new generation Spirit V2.0 range works much more intuitively by pushing, not pulling. That's innovative! Incredibly easy to use, the organic-shaped handle nestles comfortably into the palm of your hand, responding to the slightest pressure to control temperature and flow with remarkable accuracy.

34

35

Spirit V2.1

New and improved in so many ways, the elegant Spirit V2.1 mixers may appeal to more traditional tastes. This range has been restyled and re-engineered to bring it bang up to date with our very latest designs and technologies, offering the high level of comfort and ergonomics. Designed to fit into the palm of your hand, with the super cartridge within to control temperature and flow perfectly.

Superb functionality and style are combined to make life in your bathroom extraordinary, every day. For example, the brand new handleless vanity units feature a well-planned organiser, built into the front of the drawer and cleverly designed around a specially sized waste pipe. Built using long-life fittings, they push-to-open with ease.

Equally impressive are Spirit's mirrors, featuring touch-controlled edge lighting that creates a perfect, shadowless light ideal for applying make-up. You can choose from 'warm' or 'cold' light and control brightness too. Both the vanity units and tall cabinets come in a choice of options and sophisticated, on-trend colours to suit your space and to create a truly exceptional look for your bathroom.

36

37

Like

You will like it

The Like collection brings a profusion of exciting features and superb design that you wouldn't expect to find at a price this attractive. You will definitely like the range's stylish contemporary design and surprising functionality.

Design by GP designpartners, Austria, and DanelonMeroni, UK

Single-lever basin mixer F8093000
Single-lever bath and shower mixer
for concealed installation F8085000
Wall-hung WC FlashClean C801700SC

40

41

The Like wall-hung WC has an advanced rimless option, FlashClean for maximum hygiene and ultimate safety — an all-new feature for this segment. It prevents over-splashing of water and gives complete access to every area inside the bowl. Cleaning time is just a question of minutes.

Every last detail of the beautifully designed Like baths is considered to bring ultimate relaxation. Take the glorious backrest — designed at a perfect 125-degree angle for extra support and comfort. The slender rims are just 50mm wide while the inner width of the bottom means there's plenty of space as well as style. Even the bath's side panel is mirrored in the design of the furniture. Bath time is always the best time with Like.

42

43

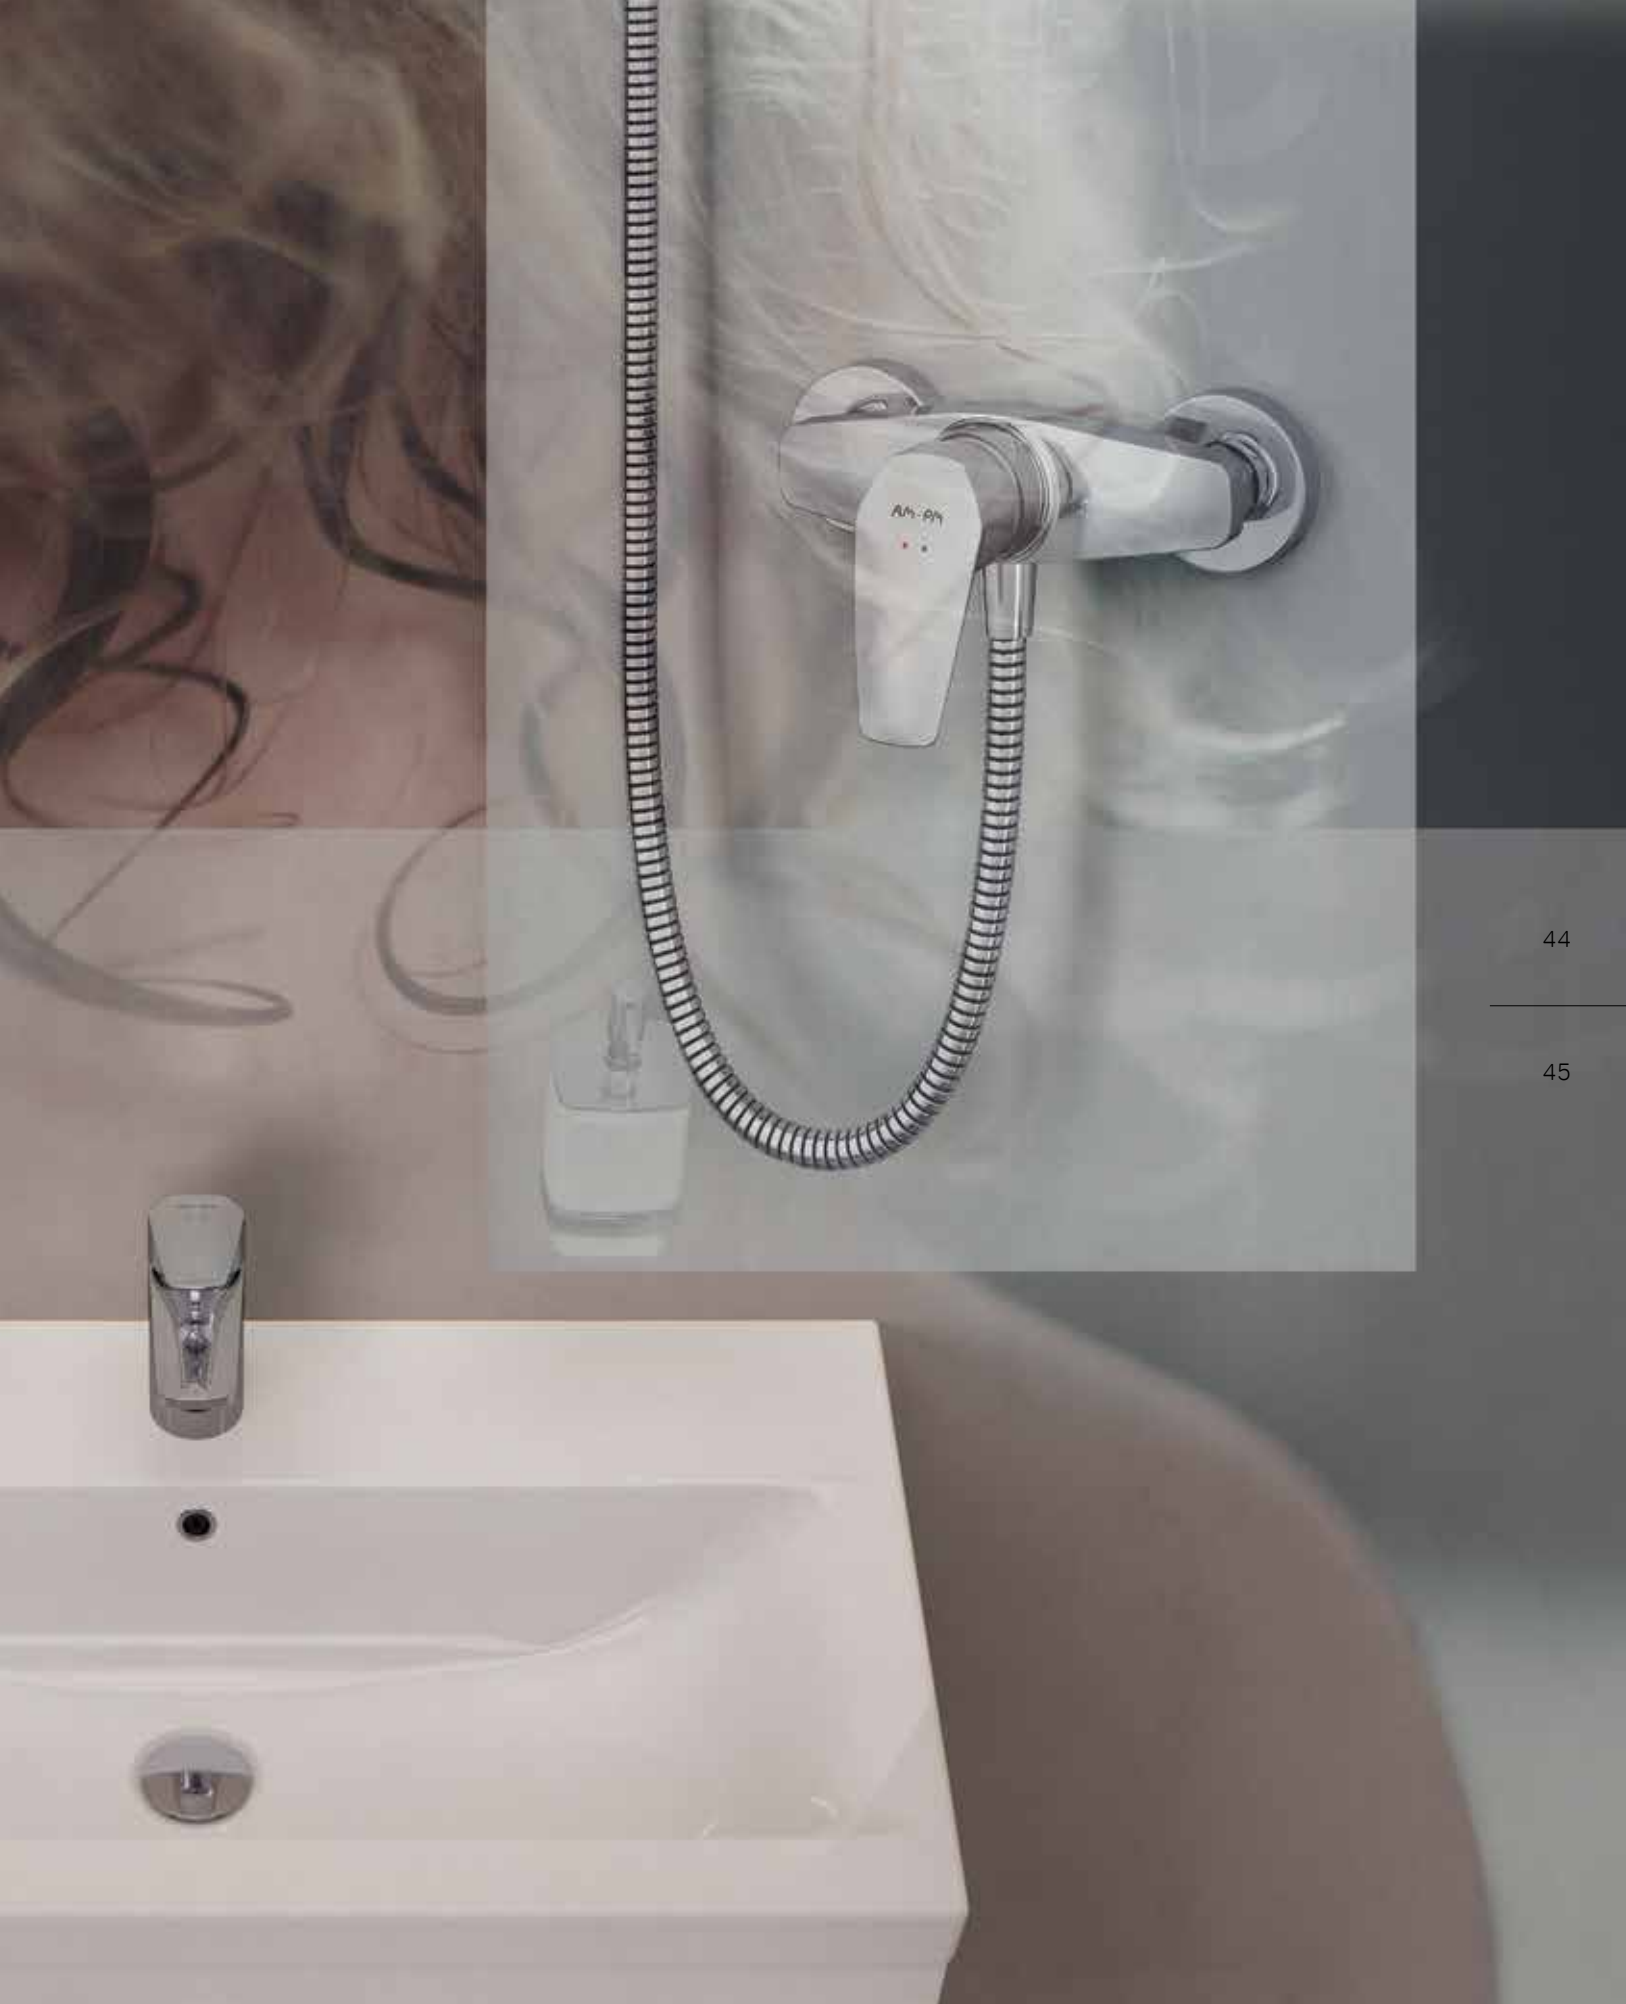

The superb flexibility and incredible value of Like's accessories give you a wealth of opportunity to tailor your room exactly the way you want to. Like nothing else for such an affordable price.

Gem

Gem for your everyday

Looking for a no-nonsense range that looks cool and ticks all the boxes? Then the brand new Gem range is for you. With its distinctive edging and outstanding hexagonal shape, it's a real diamond of a range at such an affordable price. We've thought of every detail with this stylish collection, from great ergonomics to high performance, it's got everything you need for your bathroom.

Design by GP designpartners, Austria and DanelonMeroni, UK

Single-lever basin mixer F9093000
Double towel hook A9035600
Vanity unit 75 cm M90FHX07522

46

47

Gem's trendsetting design usually comes with a much higher price tag. The compact cabinets with deep, capacious drawers to carry 35kg will fit a bathroom of any size. Gem is the first range to introduce the most advanced push-to-open fittings and contemporary colours and finishes: you will find both glossy and matt options as well as natural wood effects. Need more storage space? Just add a Gem open shelf available in all four designer finishes. Mix and match to create your own trendy colour combination!

48

49

Sleek and sporty, Gem's distinctive hexagonal form carries through effortlessly on all of our mixer taps and shower products to create a range that combines high-end looks with complete practicality. It's all in the detail. Available in a choice of sizes to fit your budget and your basin, with a larger body and a wider spout, these mixer taps are a real treat to use.

Products specifications

Unique in every detail

You will never find an unremarkable product in AM.PM collections. Our designers' and engineers' close attention to minute details make it possible for every single product to become a real hero in your bathroom, bringing you new sensations. Emotional design, cutting edge functionality and high-demand technologies are characteristic for every AM.PM product, because we want your bathroom to be extraordinary in every detail.

Inspire V2.0

Sanitary ceramics

Introducing an extraordinary combination of premium functions - an award-winning toilet, now available with the sleekest, high-performance bidet cover. Forget the high-priced, bulky electronic covers you've seen before. Now, for the first time ever, AM.PM makes this upmarket product affordable for everyone, brought to you in a cutting-edge design that matches the updated Inspire wall-hung toilet perfectly.

Wall-hung WC TouchReel

CCC50A1700SC

52

Smart seat equipped with TouchReel technology. Change bidet modes, adjust water temperature, nozzle position and water pressure intuitively — all using a rotating control reel. The system can also be remote controlled.

53

Ultra-thin seat and cover with easy-off and soft-close hinges. First to market: UF hardplastic seat with its durability, pure-white colour and scratch resistance comes with a built-in preheating function.

FlashClean: a new generation of rimless toilets with no plastic parts, makes it 100% hygienic and eliminates spray.

Inspire V2.0

Washbasins and bathroom furniture

Inspire V2.0 furniture is the perfect choice for lovers of minimalist design. It was created for today's modern consumers with busy lifestyles. The extensive choice of unit options gives endless possibilities to plan the perfect bathroom layout, designed to suit the way you live. The Inspire V2.0 furniture range comes in all the most popular sizes up to 160 cm, and exquisite matt finishes in timeless white, elegant grey and graphite grey.

Vanity unit, 100 cm

M50AFHX1003

64

Extraordinary, minimalistic design encapsulating advanced forms.

Ultra-thin, the sleek, composite marble top with its deep, ergonomically shaped basin is designed specifically to suit the vanity unit in both style and perfect proportion. It features a special shelf for the mixer too.

65

Gorgeous designer finishes in on-trend, matt colours. Environmentally-friendly, long-lasting polyacrylic enamels are applied using a special 7-layer paint technology.

A whole new take on bathroom storage — keep everyday items close at hand with the cleverly designed secret drawer-front organiser. It extends forward by 15 cm — perfect for when applying make-up. Use of space in front of the basin offers a new level of functionality.

New in the affordable price segment: premium push-to-open Blum fittings and advanced soft-close system for the softest, smoothest drawer action in its class.

Inspire V2.0

Mixers

Why make it just a fantasy, if you can make it real? That's the thinking behind the latest Inspire V2.0 mixer range. The all-new, iconic TouchReel push-and-turn handle — a supreme innovation by AM.PM — provides the ultimate in water control. Fine tune flow and temperature, set the automatic shut-off or activate the internal cleaning — but aside from these impressive features, first and foremost prepare to be enthralled by the sleek, contemporary design and the unrivalled price.

Electronic basin mixer TouchReel

F50A02400

74

Extraordinary design: the reel-shaped control has the futuristic look and feel of hi-tech devices.

75

User-friendly push-and-turn control: turn the water on by pressing lightly and adjust water flow and temperature with a smooth, rotating action. This is destined to be an unforgettable user experience.

Auto-run feature: built in option that enables the run time to be preset to automatically turn off. So convenient and water-efficient too.

Accurate temperature control: each turn changes the water temperature by 8 degrees, making it easy to find the ideal setting for you.

Incredibly safe: featuring blue and red LED temperature indication to help prevent scalding.

Sensation

Accessories

Our jewellery box is not only flawlessly designed, it's been created to provide a special place for your precious things. The iconic curved shape reflects the signature look of the rest of the range, because every Sensation bathroom product is a true masterpiece.

Big jewellery box

A3022000

92

A collection of masterpieces: the iconic dynamic organic shape is perfected, the curves coordinate seamlessly with the rest of the range

Flawless look: the material is shock and scratch-proof, capable of withstanding extreme temperatures, while the inserts made of 4mm matt glass minimise water marks

Trustworthy quality: single piece of high quality, Grade-A brass

Sensation

Wellness

The Sensation baths are carefully designed to mirror the wonderfully sophisticated design of the entire collection. Take the brilliant backrest, designed at a perfect 125-degree angle to raise your level of comfort to the maximum, or the beautifully sculptured headrest, a growing trend

Acrylic bathtub 180x80cm

W30A-180-080W-A

102

Exceptional dynamic organic design, a growing trend in the automotive industry: nature-inspired shapes complemented by dynamic lines

103

Totally coordinated look: side panel finishes the Sensation furniture, all curves match perfectly with other products in the range

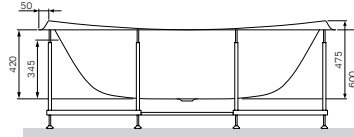

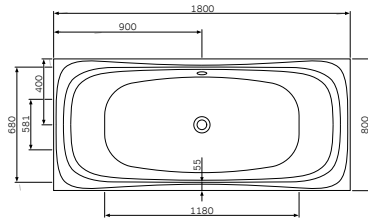

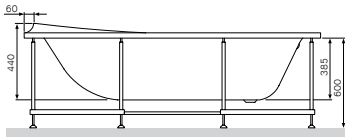

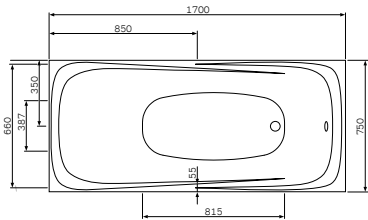

Sophisticated details: ergonomic headrest - a trendy feature for maximum relaxation

Unmatched capacity: ultra thin rims result in more space inside for maximum bathing comfort

Warm for longer: due to its low conductivity polyurethane it keeps the water temperature ideal for 30 minutes longer

Innovations

Making innovations affordable

Creating innovations and bringing new technologies from the most advanced industries is the keystone of AM.PM's R&D team. We avoid straightforward solutions: every AM.PM product from ceramics and wellness to mixer taps and accessories correspond to the highest standards, and feature the most up-to-date trends and technologies. Our goal is to make innovations accessible for all. This is what drives us to make them truly affordable.

112

113

Innovation

TouchReel

Now it's real!

Meet the innovation: our brand new TouchReel technology, based on push-and-turn smart control.

Easy and intuitive — select and adjust all product functions by smoothly rotating the control reel — just like you would on your favourite multi-media device. Featuring coloured LED-indication, this remarkable technology introduces you to a futuristic bathroom experience of one-touch control for a multitude of options. Enjoy the new level of smart control with TouchReel.

TouchReel technology integrated in our new Inspire V2.0 mixers and toilet seat

Inspire V2.0 mixers control

- Switch on/off
- Water flow adjustment
- Accurate water temperature control (each turn = 8°C)
- Coloured LED-indication for water temperature (from blue for coldest to red for hottest)
- Auto-run option — preset running time with auto shut-off for convenience and water efficiency

Inspire V2.0 smart toilet seat control

- Stylish white LED-indication for use in night mode
- Adjustable bidet modes: back, lady, massage
- Water pressure control
- Accurate water temperature control

Multidock

Universal basic unit
F100100

116

117

MultiDock is an absolute innovation from AM.PM. and, probably, the most faultless solution on the market. It's a multi-purpose module matching any functional element including thermostatic mixers. Speed of installation is just one of the benefits that makes MultiDock different from its competitors. While working on MultiDock, we thoroughly analysed the needs of our customers and professional plumbers, gathered the best, newest engineering construction and created a product that surpasses all others of its kind.

Innovation

FlashClean

4th Generation of Toilets

We are proud to present our latest innovation in WC technology — FlashClean. We have created our most efficient, up-to-date and best ever toilet by learning from best practices in the market. With FlashClean, the flushing rim is completely eliminated, meaning there are no hidden areas, giving full access to the bowl. From now on, it will take fewer cleaning products and less time to make the toilet perfectly clean.

Unlike other products in this market, FlashClean doesn't feature any plastic parts, resulting in a more aesthetic and hygienic solution. FlashClean not only meets the most demanding quality standards, it also embodies the latest, cutting-edge engineering.

1st generation: open rim

2nd generation: box rim

3rd generation: reduced rim

4th generation: FlashClean,
true rimless WC

Eco

FlashClean combines simple cleaning with an environmentally friendly approach. Through careful analysis and research, AM.PM have achieved a truly unique combination — an eco-friendly 4.5 litre flush and a fully washed bowl, leaving no unwashed areas to harbour germs. As a result, water consumption is reduced by 25% without compromising flushing efficiency.

Clean

FlashClean truly brings a new generation of rimless WCs. Thanks to the perfectly engineered geometry of the bowl, everywhere is accessible — there are no hard-to-clean areas. All this, combined with innovative flushing water dynamics, makes AM.PM rimless toilets the most hygienic and germ-free products on the market today.

No oversplashing

FlashClean's bowl has been designed to completely eliminate over-splashing, which means it meets the most stringent EN requirements. According to European standards, tests are carried out to measure the extent of water droplets on the floor, and our laboratory tests show FlashClean toilets have no water droplets — even on the glass cover placed on top of the bowl.

Additional services

The AM.PM client service centre is located in Oberhausen, Germany. Our experienced engineers develop innovative new features and technologies, as well as setting the standards for the brand and catering for quality control and testing.

In a similar centre in St. Petersburg, Russia, our skilled specialists provide brand support and research markets. The city's spirit was imprinted into our brand DNA: a young maverick, with a

rich cultural heritage and a strong affinity with the best that European culture has to offer. Our purpose remains the same — to provoke desire, to surprise and to amaze our customers. This is why AM.PM was created, and that's what makes our bathrooms so special.

Contact information
